# Missiles and Rockets

# Editorial Index

# July-December 1964

- A -

A-7 (VAL). A-7 Will Carry Wide Missile Variety, 8/3/64, p. 7.
AARPS. Marquardt Exploring Air Augmentation by Russell Hawkes, 8/17/64, p. 28.
AIAA. AIAA President Urges Support for Space Programs, 7/6/64, p. 12-17.
AIAA Meeting Sets Future Format, 7/13/64, p. 21.
ADVANCED BALLISTIC RE-ENTRY SYSTEM (ABRES). ABRES Shots Going West?, 9/28/64, p. 7.
ADVANCED DISPLAYS. Weak Point of Present Systems Lies at Computer Programming End of Chain, 10/5/64, p. 27.
Variety of Techniques Holds Promise, 10/5/64, p. 31.
Digital Computer TV Displays Gaining Favor for Operations C&C Use, 10/5/64, p. 38.
Industry Cautious in Approach to Manned Spaceflight Systems, 10/5/64, p. 43.
ADVANCED SURFACE MISSILE SYSTEM (ASMS). Navy Picks Seven for ASMS Study, 8/17/64, p. 7.
3-T Successor Develops Slowly by James Trainor, 11/2/64, p. 10.
AEROSPACE TRANSPORTER. Eurospace Outlines Plans for Joint Aerospace Transporter, by Frank G. McGuire, 11/23/64, p. 32.
AGENA. Home-Made Oscar III Comsat Awaits Piggy-Back Agena Ride by Robert Lindsey, 7/6/64, p. 31.
Agena Included in T-IIIX Study, 9/7/64, p. 9.
Burroughs Gets Gemini and Agena Guidance Job by Chris Butler, 9/14/64, p. 70.
MSC Seen Favoring Concentric Orbit Gemini-Agena Rendezvous, by Jinx Mercer, 10/12/64, p. 30.
Agena to Use Nitrogen Tetroxide, 11/2/64, p. 7.
AIR FORCE. Money Studies Funded by AF, 7/27/64, p. 33, 34.
Air Force Plans 50 More ICBM's, 8/10/64, p. 11.
Air Force Adopts New EPW Buy Approach, by John F. Judge, 8/10/64, p. 34.
Data Processing Subsystem To Refine Air Force's 473L Pentagon Complex, by Rex Pay, 8/17/64, p. 26.
AF Wants Bigger Cap Pistol, 8/24/64, p. 9.
AF Names Scientists, 8/24/64, p. 11.
AF Conducting Lightning Tests, 8/24/64, p. 17.
AF Martin Recommend Development of Titan III Non-Man-Rated Version, 8/31/64, p. 11.
BSD Chief Sees Present Photometric Techniques at Limit of Development, by Charles D. LaFond, 8/31/64, p. 13.
AF Outlines Future Solid-State R&R, 8/31/64, p. 14.
Space Station Simulator Delivered to AF, 8/31/64, p. 17.
AF Developing Antitank Mines, 9/7/64, p. 9.
AF Pilots 'Far Exceed' Expected Performance In Military Experiment, by Heather M. David, 9/7/64, p. 26.
NASA AF to Swap Personnel, 9/28/64, p. 8.
AF Seeks Sensitive Laser Receiver, 9/28/64, p. 17.
AF Developing Air-Recoverable Rocket, 10/12/64, p. 9.
AF Takes Over Big Rally II Communications System, by Charles LaFond, 10/12/64, p. 24.
Project Forecast Recommendations Reshaping AF Bioastronautics' Effort, by Heather M. David, 10/19/64, p. 27.
AF Starts Tests of Its 'Most Perfect' Antenna, 10/19/64, p. 30.
Maxwell Hints at UAFB MOL Flights, 10/26/64, p. 9.
GT-3 Vehicle Goes to AF, 11/2/64, p. 9.
AF To Seek Satellite Interceptor, 11/23/64, p. 7.
AF Pushes Work on IC Exploitation, by Michael Getler, 11/23/64, p. 22.
AF To Fund Missile Studies, 11/30/64, p. 11.
ANTI-SATELLITE. Anti-Satellite Weapons Tested, by James Trainor, 9/28/64, p. 10.
Operation Satellite Killers Need Non-Nuclear Destruct Device, 9/28/64, p. 10.
ANTITANK. Army Gets Antitank Go-Ahead, by James Trainor, 9/7/64, p. 14.
Fluid Control System Holds MAW Potential, 10/5/64, p. 17.
APOLLO. Firms Get $50 M for Apollo, 7/13/64, p. 11.
Apollo Unified S-Band Network to Cost Minimum of $160-170 M, by Charles D. LaFond, 7/20/64, p. 20.
Apollo Astronauts Are Painstakingly Protected For Solar-Flare Protons, by Rex Pay, 7/20/64, p. 22, 23, 26.
Apollo Gets Together, 8/10/64, p. 9.
Water-Cooled Apollo Suit Is Favored, 8/10/64, p. 9.
Ranger VII Proves Apollo Feasibility, 8/10/64, p. 16.
First of Some 50 Block II Apollo G&N Computers is Due by Mid-1965, by Rex Pay, 9/7/64, p. 36.
Unique Lava Tests Show Need for Apollo Suit Changes, 9/14/64, p. 19.
SA-7 Carrying Apollo Boilerplate, 9/14/64, p. 20.
New Apollo Contracts Total More Than $566 Million, 9/14/64, p. 20.
Apollo Radiation Detectors Ordered, 9/14/64, p. 31.
Apollo Chute Trouble Lingers, 9/14/64, p. 9.
Apollo To Get Plastic Cover, 10/5/64, p. 23.
Apollo Modules Lightened, 10/12/64, p. 17.
Apollo Experiment Needs Updated, 10/19/64, p. 9.
Apollo's Military Potential Detailed, 11/9/64, p. 15.
Apollo-X Presentation Is First Step Toward NASA Space Station, by Hal Taylor, 11/16/64, p. 13.
Apollo Command Module Guidance Tested, 11/23/64, p. 15.
Apollo-X Spacecraft Going Into Program Definition Next Fiscal Year, 11/30/64, p. 52.
Apollo-X Experiments and Flight Plans, 11/30/64, p. 56.
Apollo Launch Escape Test Due, 12/7/64, p. 13.
ARMS INSPECTION. JPL Expert Concludes Public Unwilling to Buy Costly Arms Inspection System, by Russell Hawkes, 7/13/64, p. 22.
ARMY. Army Preparing MAW Requirements, 8/3/64, p. 7.
Army to Hold Industry Briefing, 8/3/64, p. 9.
Army Presses for Tank Killer, by James Trainor, 8/3/64, p. 10.
Army Gets Antitank Go-Ahead, by James Trainor, 9/7/64, p. 14.
Army Awards Thiokol MAW Contract, 9/21/64, p. 9.
Army Considering New Missile System, 10/5/64, p. 9.
Army Awards Nike-X Contract, 10/5/64, p. 11.
Army Considering Expansion of SECOR Satellite Mapping Program, 11/2/64, p. 12.
ASSET. Coating Protects ASSET, 11/23/64, p. 23.
ASTOR (NUCLEOR ANTI-SUBMARINE TORPEDO). ASTOR To Be Competitively procured, 10/19/64, p. 9.
ASW. Navy to Let ASW Contract, 8/10/64, p. 9.
Navy Feels Defense Adequate - For Now, 9/21/64, p. 24.
Navy ASW Surveillance and Ocean Patrol Forces, 9/21/64, p. 26.
Martell Karaberis Share Management Responsibility in Separate Offices, 9/21/64, p. 35.
ASW Budget Running at $386.5 Million But Past Approach Hampers Work, 9/21/64, p. 40.
Detection Classification are Key Jobs, 9/21/64, p. 46.
Stand-Off Weapon for Seahawk Ships Is Sole Big Missile Development Seen, 9/21/64, p. 65.
New Undersea Test Facility To Go Operational in December 1965, 9/21/64, p. 78.

ASW (Cont.)
Martell Tells of ASW Efforts, 9/28/64, p. 8.
Nitze Discusses ASW, 11/9/64, p. 10.
Systems Integration Contract Forbids Firm From Bidding on Hardware, 11/9/64, p. 16.
ATLAS F. Atlas Updating Beats Schedule by Three Months, 9/28/64, p. 7.
ATLAS-CENTAUR. Centaur Called 'Partial Success', 7/6/64, p. 10.
More Centaurs About to be Ordered, 7/13/64, p. 9.
Details of Atlas/Centaur/Surveyor in Combination, 9/14/64, p. 27.
Thermo-Lag on Centaur, 10/5/64, p. 23.
Centaur Launch to Carry Dummy Surveyor, 11/2/64, p. 7.
General Dynamics Proposes Up-Rated Atlas as Titan III-X Competitor, 11/16/64, p. 30.
ATHENA. Athena Scores First Success, by Charles D. LaFond, 11/16/64, p. 32.
ATOMIC ENERGY COMMISSION. Senate Committee Votes AEC $4 Million in LASV Costs, 8/10/64, p. 15.
Poodle May Get Nod From AEC, 8/24/64, p. 10.
AEC Tightens Contract Appeal Handling, 9/21/64, p. 9.
AEC Likely to Spend over $2 Billion on Rockets and Auxiliary Power Units, 11/30/64, p. 172.
AUSTRALIA. World Missile/Space Encyclopedia, 7/27/64, p. 124.
Australians Plan Defense Increase, 11/16/64, p. 7.
AUTOMATED BIOLOGICAL LABORATORY (ABL). Aeronutronic Weighs ABL Experiments, 11/30/64, p. 87.
ABL Mars Landing May Come in 1971, 8/24/64, p. 15.

- B -

BALLISTIC EARLY WARNING SYSTEM (BMEWS). New Tracker for Alaska BMEWS Site, 7/13/64, p. 9.
BEACON EXPLORER. More Beacon Explorers Soon, 10/19/64, p. 11.
BIG RALLY II. AF Takes Over Big Rally II Communications System, by Charles D. LaFond, 10/12/64, p. 24.
BULLPUP. Single Source Procurement Yields Further Bullpup Cost Savings, by Michael Getler, 8/3/64, p. 18, 21, 22.
New Interest In Plastics for Bullpup, 8/10/64, p. 9.

- C -

CAMERA CAPSULES. Camera Capsules Aid Saturn Program, 9/14/64, p. 54.
CANADA. World Missile/Space Encyclopedia, 7/27/64, p. 124.
Canada Ready to Sign Comsat Pact, 8/17/64, p. 7.
U. S.-Canadian Missile Studied, 9/14/64, p. 13.
CANDIDATES. Candidates Records on Defense and Space Bills, 10/19/64, p. 16.
Views of the Presidential Candidates On the Future of U. S. in Space, 10/26/64, p. 16.
CENTRIFUGE. Ames Centrifuge To Be 'Most Sophisticated', 8/31/64, p. 33.
CHINA. Chinese Missile Threat Seen Distant, 11/2/64, p. 7.
Red China May Have Delivery System, 11/30/64, p. 11.
COMMAND AND CONTROL. SAC C&C System Tests Beginning, by Michael Getler, 7/13/64, p. 18.
Digital Computer-TV Displays Gaining Favor for Operations C&C Use, 10/5/64, p. 38.
Pentagon's New Stress on Tactical C&C Systems Highlights ISS Meeting, by Michael Getler, 12/7/64, p. 18.
COMMUNICATIONS SATELLITE CORPORATION. Home-Made Oscar III Comsat Awaits Piggy-Back Agena Ride, by Robert Lindsey, 7/6/64, p. 31.
Comsat Nominates Six, 7/13/64, p. 12.
$H_2O_2$ Reaction System Good for Ten Years, 7/13/64, p. 27.
DOD To Develop Own Comsats, by James Trainor, 7/20/64, p. 10.
Global Comsat Pack Assures U. S. Up to 61% of Contract Money, 8/3/64, p. 14.
DOD-Comsat Agreement Still Possible, by Heather M. David, 8/17/64, p. 13.
Experts Say Rise in Comsat Stock Due to Scarcity, Shortsightedness, by Michael Getler, 9/14/64, p. 18.
Comsat Board Awaits Senate Nod, by Suzanne Montgomery, 9/28/64, p. 34.
Reds Take New Anti-Comsat Tack, 10/12/64, p. 9.
European Comsat Plan Advances, by Frank G. McGuire, 11/9/64, p. 12.
Medium and Synchronous-Altitude Satellite Mix Considered by Comsat, 11/30/64, p. 136.
Comsat Ponders Launch Vehicles, 11/30/64, p. 140
COMPUTER. Sophisticated Thin-Film Computer Holds Aerospace System Potential, by Charles D. LaFond, 10/19/64, p. 33.
Autonetics Expects 20-cu. in. Digital Computer to Be Ready in 3-4 Years, by Rex Pay, 10/26/64, p. 27.
First Saturn V Guidance Computer, Data Adapter Phototypes Due at Marshall, by Charles D. LaFond, 11/2/64, p. 31.
RCA System Pinpoints Satellite Size, Shape, Orbital Characteristics, by Rex Pay, 11/2/64, p. 37.
CONDOR. Navy Solicits Condor Proposals, 9/21/64, p. 11.
CONGRESS. Congress Probing LASV/Pluto, 7/27/64, p. 9.
Congress Clears Contractors, 8/3/64, p. 8.
Senate Committee Okays $46.8 Billion for Defense, 8/3/64, p. 12.
Senate Approves $5.3 Billion for NASA, by Heather M. David, 8/10/64, p. 15.
Senate Committee Votes AEC $4 Million in LASV Costs, 8/10/64, p. 15.
Daddario Unit Seeking Proper Level of R&D Aid, 8/10/64, p. 26.
Senators Claim Booster Credit, 9/7/64, p. 9.
And House Group Eyes Aerospace Corp., 9/7/64, p. 9.
Crackdown on Employee Welfare Programs Sought, by Heather M. David, 9/14/64, p. 27.
Congressional Rein on R&D Defended, by Charles D. LaFond, 9/21/64, p. 18.
House Panel To Begin Scrutiny of Government-Funded Basic Research, by Heather M. David, 9/28/64, p. 14.
Committee Will Study Use of ADP, 9/28/64, p. 15.
Single Office Proposed to Combat Shortage of Scientists and Engineers, by Heather M. David, 10/5/64, p. 21.

- D -

DATA COMPRESSION. Symposium Stresses Data Compression, by Rex Pay, 10/12/64, p. 35.
DATA PROCESSING. Resourceful Computer Application Keeps Hercules Plant on Schedule, by John F. Judge, 7/13/64, p. 28, 31, 32.
Data-Processing Subsystem to Refine A.F.'s 473L Pentagon Complex, by Rex Pay, 8/17/64, p. 26.
Committee Will Study Use of ADP, 9/28/64, p. 15.
DELTA. Douglas Developing Improved Delta, by Willard E. Wilks, 8/10/64, p. 33.
ESRO Considers Delta Purchase, 8/31/64, p. 15.
DEPARTMENT OF DEFENSE. DOD Stresses Logistics Role, 7/13/64, p. 11.

DEPARTMENT OF DEFENSE (Cont.)
DOD Studies CPE Extension, 7/13/64, p. 11.
DOD Decides to Cancel LASV, by James Trainor, 7/13/64, p. 16.
DOD To Develop Own Comsats, by James Trainor, 7/20/64, p. 10.
DOD issues Cost Directive, 7/27/64, p. 28, 29.
Status of FY 1965 Budget Request, 7/27/64, p. 143.
DOD Official Says U.S.S.R. Can't Salvo ICBM's, by James Trainor, 8/10/64, p. 14.
Goldwater, Pentagon Clash on Defense, by James Trainor, 8/17/64, p. 12.
DOD-Comsat Agreement Still Possible, by Heather M. David, 8/17/64, p. 13.
McNamara Claims Big Strategic Edge, 8/24/64, p. 14.
Systems Group Improves Sperry's Competitive Position with DOD, by Michael Getler, 8/24/64, p. 24.
DOD Sets Terms on Standardized Guidance, 8/31/64, p. 7.
DOD/Contractor Information System Pilot Test Begun, 9/14/64, p. 52.
First DOD Comsat Due for Early '66 Launch, 9/21/64, p. 9.
McNamara Details Nuclear Yields, 9/28/64, p. 12.
DOD Weighs New War Concept, by James Trainor, 10/5/64, p. 14.
DOD Tightens Rules on Employees Accepting Favors from Contractors, 10/5/64, p. 16.
DOD Comsat Plan Rapped, 10/12/64, p. 10.
DOD Standards Hit, 10/26/64, p. 10.
In DOD Reply to G.O.P., New Missiles Get 'Left-Handed' Okay, by James Trainor, 10/26/64, p. 15.
McNamara Firm on Conduct Code, 11/2/64, p. 13.
DOD May Toughen Patent Policies, 12/7/64, p. 11.
DIFFUSION PUMP. All-Metal Diffusion Pump Practical New Route to Ultra-High Vacuums, by William Beller, 11/16/64, p. 22.

- E -

EDITORIALS. Cooperation With Europe, 7/6/64, p. 46.
That Manpower 'Shortage', 7/13/64, p. 46.
Two Minds, 7/20/64, p. 46.
The World Ahead, 7/27/64, p. 168.
Alice In McNamaraland, 8/3/64, p. 46.
The Lone Ranger, 8/10/64, p. 54.
The Calculated Truth, 8/17/64, p. 46.
No Tears, No Sorrow, 8/24/64, p. 46.
That Visceral Feeling, 8/31/64, p. 46.
The Red Dilemma, 9/7/64, p. 46.
Farnborough Revisited, 9/14/64, p. 90.
Run Silent, Run Deep, 9/21/64, p. 82.
The Briefing, 9/28/64, p. 46.
How To Play Unpolitics, 10/5/64, p. 50.
A Bit of a Squashy Subject, 10/12/64, p. 50.
The Gauntlet, 10/19/64, p. 54.
The History Lesson, 10/26/64, p. 46.
Et Tu, Brute, 11/2/64, p. 46.
The Aftermath, 11/9/64, p. 50.

The High Price of Silence, 11/23/64, p. 46.
The Next Steps, 11/30/64, p. 218.
Courage and Defense Economy, 12/7/64, p. 46.
The MOL Decision, 12/14/64, p. 46.
Letter From The Editor, 12/21/64, p. 46.
EGYPT. World Missile/Space Encyclopedia, 7/27/64, p. 124, 125.
ELECTRONIC RESEARCH CENTER. Site of ERC To Be Announced Shortly, 7/20/64, p. 13.
ERC Awards to Begin Shortly, by Hal Taylor, 8/17/64, p. 10.
ERC Gets Cambridge Home, 8/31/64, p. 8.
ERC To Let 35-40 Contracts, by Michael Getler, 11/16/64, p. 10.
ELDO (EUROPEAN LAUNCHER DEVELOPMENT ORGANIZATION). Prototype ELDO Guidance Receiver To Be Delivered Next June, by Frank G. McGuire, 10/26/64, p. 32.
First Flight of ELDO Booster T/M Components Due Next August, by Frank G. McGuire, 11/2/64, p. 26.
ENVIRONMENTAL TESTING. Goddard Seeks Scaling Laws To Cut Cost of Environmental Testing, by William Beller, 7/20/64, p. 34, 35.
ESRO (EUROPEAN SPACE RESEARCH ORGANIZATION). ESRO Considers Delta Purchase, 8/31/64, p. 15.
ESRO Preparing Telemetry Purchase, 10/12/64, p. 9.
ESRO Facility To Buy U. S. Equipment, 10/19/64, p. 24.
Work Starts on First ESTRACK Station, 11/2/64, p. 7.
ESTRACK. Work Starts on First ESTRACK Station, 11/2/64, p. 7.
EXPENDITURES. Wall Street Expert Sees Steady Level of Spending But Warns of Profit Drop, 7/20/64, p. 15.
Defense Spending Falls, 10/26/64, p. 11.
EXPLODING BRIDGEWIRE (EBW). Air Force Adopts New EBW Buy Approach, by John F. Judge, 8/10/64, p. 34.
EXPLORER XX. Topsi Reports on Ionosphere, 10/26/64, p. 23.

- F -

FLAME. Martin Facility Testing Ablatives, by William Beller, 8/24/64, p. 35.
FLUID CONTROL SYSTEM. Fluid Control System Flight-Tested, 10/12/64, p. 21.
FRANCE. World Missile/Space Encyclopedia, 7/27/64, p. 125.
French Rocket To Use U. S. Unit, 8/10/64, p. 9.
French Reveal D-1 Satellite Details, 8/24/64, p. 27.
Anglo-French Missile Conceived, 9/7/64, p. 9.
British-French Missile Confirmed, 9/14/64, p. 16.
French Hush Electronic Development, 11/2/64, p. 7.
French Show Off New Missiles, 11/16/64, p. 7.
French Plan Rocket Test Tract, 12/7/64, p. 7.

- G -

GAUGING. Gauging Trails Vacuum Chamber Capabilities, by John F. Judge, 10/19/64, p. 36.
GEMINI. Manned Gemini Target Date Slips, 7/6/64, p. 7.
Gemini Contract May Go Incentive, 7/6/64, p. 7.
Third Manned Gemini Will Have Rendezvous Capability, by Rex Pay, 7/6/64, p. 21.
Para-Sail Selected for Gemini, 8/17/64, p. 7.
Grissom To Make First Gemini Maneuver, 8/17/64, p. 7.
GT-10 To Carry Laser Voice Transmitter, 8/17/64, p. 15.
ETR Gemini Work Under Way, 8/17/64, p. 17.
NASA Finalizes Mission Schedule for Entire Gemini Program, 8/24/64, p. 12.
Cockpit Unit Will Allow Gemini Astronauts to Alter Flight Plan, 8/24/64, p. 33.
Parasail To Be Proposed for Gemini, by Rex Pay, 8/31/64, p. 22.
Gemini Crew Training Advances, 9/14/64, p. 11.
Burroughs Gets Gemini and Agena Guidance Job, by Chris Butler, 9/14/64, p. 70.
Hypertension Study Slated for Gemini, 9/28/64, p. 7.
Gemini Ballute To Be Drop-Tested, 10/12/64, p. 21.
MSC Seen Favoring Concentric Orbit Gemini-Agena Rendezvous, by Jinx Mercer, 10/12/64, p. 30.
Plane Changes Planned for GT-3, 10/19/64, p. 13.

GEMINI (Cont.)
First Complete Gemini Readied for Titan, 10/26/64, p. 21.
GT-3 Vehicle Goes to AF, 11/2/64, p. 9.
Gemini's Horizontal-Ejection Escape System Reported More than Adequate, by Willard E. Wilks, 11/2/64, p. 24.
GE's Gemini/Bio's Fuel Cell Progresses, 11/2/64, p. 35.
Gemini Mated to Titan II, 12/7/64, p. 11.
GERMANY. World Missile/Space Encyclopedia, 7/27/64, p. 131.
GREAT BRITAIN. World Missile/Space Encyclopedia, 7/27/64, p. 131.
Anglo-French Missile Conceived, 9/7/64, p. 9.
British-French Missile Deal Confirmed, 9/14/64, p. 16.
U. K. Program To Use Black Knights, by Frank G. McGuire, 10/5/64, p. 26.
British Buy May Boost Sparrow Market, 11/2/64, p. 7.
British Report Shows Big Increase in U. S. Strategic Missile Strength, 11/23/64, p. 12.
GUIDANCE. DOD Sets Terms on Standardized Guidance, 8/31/64, p. 7.
Inexpensive Missile Guidance System Aired, 8/31/64, p. 15.
First of Some 50 Block II Apollo G&N Computers Is Due by Mid-1965, by Rex Pay, 9/7/64, p. 36.
Burroughs Gets Gemini and Agena Guidance Job, by Chris Butler, 9/14/64, p. 70.
Torpedo System at Lear, 10/26/64, p. 23.
ITT Affiliate Working on Gas Laser for Guidance System Use, 11/2/64, p. 34.
New Missile Guidance Under Study, 12/7/64, p. 7.

- H -

HELICOPTERS. Helicopters Will Get Big Hardware Transport Test, by Danna Henderson, 8/31/64, p. 27.
HERCULES. Hercules Sites to Increase, 10/5/64, p. 9.
HIGH-G BOOST EXPERIMENT. HIBEX Tests Begin This Year, by James Trainor, 8/31/64, p. 10.
HIBEX Test Successful, 11/16/64, p. 9.
HONEST JOHN. Honest John is in Demand, 11/23/64, p. 7.
HORNET. Hornet System Looks Promising, 8/3/64, p. 7.
HOVERCRAFT MISSILE TRANSPORTER. Hovercraft Missile Transporter Seen by Michael Getler, 8/17/64, p. 18.
HYBRID ROCKETS. Hybrid Concept Developing Rapidly Toward Goal of Tripropellant Engine, by John F. Judge, 11/9/64, p. 31.
HYPERSONIC SHOCK TUNNEL. Hypersonic Facility Planned, 7/27/64, p. 24, 25.

- I -

IAF. Use of Drugs and Servos Urged to Aid Astronauts, by William Beller, 9/21/64, p. 16.
IAF Paper Reflects Growing Lunar Interest, 10/5/64, p. 24.
IGNITER. 260-in. Igniter Fabrication Detailed, 10/12/64, p. 28.
IN-FLIGHT MAINTENANCE. In-Flight Maintenance Stressed in Manned Mission's Beyond Apollo, by Willard E. Wilks, 10/12/64, p. 18.
INFRASTRUCTURE. NATO Plans SAGE-Type System, by William Beller, 10/12/64, p. 14.
INSTITUTE FOR DEFENSE ANALYSES (IDA). Ruina Taking Top Post at IDA, by James Trainor, 9/21/64, p. 15.
